FROM IDAHO.

We clip the following from the *World* of the 10th:

ALTURAS ITEMS.

Mr. Derrick, one of the old residents of Alturas county, is in town. The Waddingham mill is running. The Benson mill will run a short time. The other mills will likely remain idle during the winter. Two or three arastras have made some money this fall—among them one working Ada Elmore rock. Rocky Bar is still the principal mining camp of that country. Red Warrior is about deserted. A full supply of provisions has been laid in for winter's use, so that the old trouble about anything to eat will likely be obviated this season. Quite a number of citizens will go to Boise City to winter.

WAREHOUSE ROBBERY.

The warehouse of Powell & Co., in this city, was broken into on last Wednesday night and about 2,000 pounds of rice taken therefrom. A search warrant has been placed in the hands of Constable Wilson, by Justice Turner, and a rigid examination of Chinese tenements will be prosecuted—they being suspected of the theft.

MINING IN IDAHO CITY.

Taking advantage of the limited supply of water obtainable at this season, many of the miners have constructed tanks and troughing along Main street, and are busily engaged in rocking dirt taken from under the houses—some of them making homestakes and all good wages. A not insignificant sum is also obtained by another less fortunate class from the sweepings of the various business houses. The dirt is collected into sacks and boxes by the aid of brooms and shovels, taken to the nearest available water and either rocked or panned out by hand—in some instances producing profits large and peculiar. Industry will find a winter's grub somehow.

SPECIAL ELECTION.

A special election has been ordered by the Governor to fill a vacancy occasioned by the resignation of B. B. Norton, member of the House of Representatives from Nez Perce county. The election will be held on the 22d of this month.

PETTY THIEVES.

Two unconscionable rogues stole all the bedding, clothing and ictas, from the cabin of Thos. Foye, Tax Collector, last Saturday night, while he was absent an hour or two. We have heard of several other robberies, of miners' cabins and tenements, and wood piles about town. Some of these rogues may get peppered.

BITTEN BY DOGS.

Three ferocious dogs attacked Dr. Bryant last Wednesday as he was going to Bear Run attending to some business, and one of them bit him badly.

The following items are from the *Avalanche* of the 10th:

INDIAN FIGHTS.

A private letter from Capt. Walker, at Camp Smith, to a resident of Silver, says he had just returned from an Indian chase: "We killed 4 and wounded 2 or 3 more. Mr. Drake, Reid, Griffith, a soldier and myself were the only ones engaged on our side, the rest of the party (21) had not come up. Indians numbered 25 or 30." The letter had no date, but the Captain's word is good for the balance in this locality. He promised particulars in another letter soon.

Capt. Prescott happened at Camp Lyon last Saturday when the word came in of another fight—this time in the Owyhee lava-beds. That Capt. O'Brien and a detachment of soldiers were on a scout, and found an old Indian who had been left behind as of no further account; that the said Indian volunteered to pilot the soldiers to the rendezvous of the Indians who had thus deserted him. This arrangement was successful—the soldiers killing a number of Indians, capturing eight or ten, and upwards of thirty horses. The number of dead Indians reported varies from nine to fourteen and upwards.

HORSES STOLEN BY INDIANS.

Last Saturday night two horses were stolen from a ranch in Flint District, and some other devilment transacted—the character of which we are not informed. For pure cussedness, these red men are unrivalled. They come into the Owyhee settlements occasionally and, when there is a dearth of horse-flesh for stealing purposes, they break up agricultural implements—slash round and "fix things," as A. Ward would say. O, the gentle cuss—so to speak.

MORNING STAR MILL.

It is pretty well settled that this pioneer institution will resume business soon under the management of W. L. Burnham and D. H. Jackson. As we are informed, the Vulcan ledge, a north extension of the Silver Cord, prospects exceedingly well, and shows a width of four feet, and that there are already two hundred tons of good quartz ready to haul.

THE CURRENCY QUESTION.

Persons who have the best means of knowing, say the rules adopted here a few weeks ago are rigidly adhered to, and that the result is generally satisfactory and an earnest of a better state of financial affairs.

We clip the following extracts from a letter dated Lewiston, Nov. 2d, and published in the Boise *Statesman* of the 13th:

THE LOLO FORK TRAIL.

The fifty thousand dollars appropriated by Government, the most of which has been expended by Dr. Bird this season in opening a road to Northern Montana, has nearly completed a good trail; and the balance of the money, left in the hands of Major Truax to be expended early in the spring will complete a good trail, one that is cleaned out, from ten to twelve feet wide, all the way over the Bitter Root mountains, and sufficiently graded to accommodate pack trains and travel—connecting Lewiston on the Snake river and Helena on the Missouri in a distance of three hundred and fifty miles. Dr. Kelly, one of our most substantial citizens, who has been over the route and examined the work of Dr. Bird, pronounced the route favorably located, and the labor and money judiciously expended. The doctor is positive that one hundred thousand dollars more would grade a good wagon road over all the necessary passes for the whole distance.

THE MINES OF NORTHERN IDAHO.

I can point to many men who left good mines in Warren's, Florence, Elk City and Oro Fino, and others who had established a promising business, but are now penniless, following visionary fortunes in other portions of the Territory; while we can scarcely point to an individual that stuck to his mine or continued at his post of business that is not now in pretty favorable circumstances. Warren's camp has been improving every year, and this year the placer mines have yielded much larger than any former year. Florence has done as well as any year except the first. In this camp they have a short season for water, and during that time hands were scarce. In Elk City the mines were flooded all the fore part of the summer, and they have made only about an average yield. In Oro Fino the Chinamen have nearly monopolized the camp. Between seven and eight hundred have worked there with good returns all summer, and as many can continue to work there for twenty years to come with like profits. On Salmon and Snake rivers we have extensive bars that have been sufficiently prospected to form a pretty certain opinion of their extent. Some miners have worked on these bars all summer, and many more will work them this winter. They generally work them with a rocker, and they pay from four to five dollars per day. There have been but trifling expenditures made to bring water on these bars, and of course they have produced but little gold. Many of the bars have been sufficiently prospected to prove their richness, and several expensive ditches have been dug this winter, and we may hereafter expect from this portion of our territory a large yield of gold. It is safe to say that Salmon river alone will furnish remunerative labor for one thousand miners for ten years.

GOOD OUT OF EVIL.—The money realized by the United States from the sale of the privateer *Shenandoah*, at Liverpool, has been remitted to the Secretary of the Treasury. It amounts to $73,492 in gold. The remittances were made through the Barings.

The latest production of the pen of Maria S. Cummins, author of the *Lamplighter*, was a sketch of the famous War Eagle, Old Abe, the pet of the Eighth Wisconsin Volunteers. The article was published in the October number of *Our Young Folks.*

CALIFORNIA STATE ITEMS.

C. F. Schaefer, the great German traveller, is in Columbia, Tuolumne county.

A number of families from Oregon have recently settled in Arcata, Humboldt county.

The Healdsburg *Standard* says valuable gold mines have been discovered near that place.

Broom corn, to the amount of eight tons has arrived in San Francisco from Stockton.

On Sunday and yesterday mornings, the ground in many portions of Sacramento was covered with heavy frost.

During the storms of last week, snow fell on Walker's Plains, between Quincy and Oroville, to the depth of eighteen inches.

"Uncle Sam" is purchasing horses for a cavalry remount, in Stockton, at $50 and $60 per head.

Sam. Smith, night watchman in this city, (Petaluma) informs us that last Sunday morning, about 2 o'clock, a meteor as large as a barn door, sped from north to south, whirling as it went and lighting up the earth as if old Sol was in midheaven.

Mare Island contains about 750 acres of land—one-third of which is occupied with the improvements; the remainder is cultivated. The vessels now at the Yard are the monitors *Monadnock* and *Camanche*, and the sloops of war *St. Marys* and *Siam.* The number of men now employed will reach 500. The actual expenses approximate to $150,000 per month, which is about equally divided in the purchase of material and in the payment of labor. Com. T. T. Craven, the Commandant of the Yard, is said to favor the Congressional plan of reconstruction.

MAKING TRAITORS ODIOUS.—Mr. R. A. Connor, a soldier who was wounded at Chickamauga, and imprisoned at Belle Isle, Danville, Charleston and Andersonville, was lately removed by Mr. Johnson from the office of Postmaster at North Vernon, Jennings county, Indiana, and a Copperhead appointed. He has published the reasons for his decapitation, some of which we quote:

Sixth—I am removed because I do not support the infamously rebel Democratic party which systematically tried to murder me for fifteen long, dreary months, by starvation and exposure.

Seventh—I am removed because I do not support the Democratic party which starved me three days at Florence, South Carolina, for refusing to point out to them the modes of escape of some of our comrades.

Eighth—I am removed because I do not support the Democratic party who caused me to be shot at Chickamauga, and because I shot some of said Democrats.

Ninth—I am removed because I do not support the Democratic party for robbing me at Richmond, Virginia.

Tenth—I am removed because I do not support the Democratic Johnson party, whose members shot at and starved me at Belle Isle.

Eleventh—I am removed because I do not support the Democratic party, one of whom tried to shoot me a second time in Smith's building at Richmond.

Twelfth—I am removed because I do not support the Democratic party which endeavored to freeze me to death during the winter of '61 at Danville, Virginia.

Thirteenth—I am removed because I do not support the infernal and treasonable Democratic party which came near starving me to death at Charleston, South Carolina.

Fourteenth—I am removed because I do not endorse the hellish party which tortured me with hunger for six months at Andersonville, Georgia.

ANTIQUE ADVERTISING.—The following is a copy of an advertisement that appeared in a paper published in Aylesham, county of Norfolk, England, in the year 1668:

BANCROFT'S HISTORY OF THE UNITED STATES.—Says the New York *Evening Post*:

A considerable portion of the men who are now most active in American Literature, politics, and business life, were either unborn, or boys at school, when Mr. Bancroft gave to the world the first volume of what has proved to be his great life work—his "History of the United States." This was in 1834—thirty-two years ago—years which have been crowded with events, and which have witnessed greater changes than ever before occurred in our history in the same space of time. The ninth volume of this great history of our country has just been published. It takes up the narrative at July, 1776, just after the issue of the immortal Declaration of Independence, gives the history of the struggle which followed, and as collateral, the history of the American negotiations abroad.

NEW DISCOVERY.—A Canyon City correspondent under date of Nov. 4th says:

"Dr. Bruncy (a man who has gained considerable reputation as an explorer and prospector) has just returned from the North Fork of John Day, which stream he prospected for a distance of fifty-four miles. He reports gold in paying quantities on all of the principal bars; and further states that by the hydraulic process, from twenty to forty dollars a day to the hand would be no exaggeration."

WEDNESDAY MORNING, NOV. 21, 1866.

In the Depths of Despair.

The saddest thing in life is to be compelled to witness distress and yet not be able to relieve it. It is especially sad to see people on the rack with imaginary tortures, and yet to be unable to dispel the hallucination which is driving them to madness. We are moved to the reflections by reading the leading article in the *Confederate Democrat* of Saturday last. The subject of that article is "the nigger," and the strain in which it is written resembles the fine frenzy of one, who, past hope and past despair, can be facetious over his misfortunes and jest bitterly about his calamities. This editor sees in the election of two negroes to the Massachusetts Legislature, the speedy corruption, degradation and extinction of the Caucasian race. In his belief, all is over. It is useless to contend longer against destiny. The next step will be, what is called in Democratic parlance, "mongrelization." The state of public opinion will soon be such that Democrats can, without expulsion from society, marry "niggers." What protection will Democrats then have? Civil society is nothing better than a delusion if it does not guard its members against these dangers. Is not the past full of warning? See what Dick Johnson, Democratic Vice President, did in the days of "nigger equality." And will any one have the temerity to say that a like danger is now imminent? He has studied history and meditated on the ways of men to little purpose, who does not see that there is great danger that negroes will yet be permitted, as they once did, to vote in Democratic Virginia and North Carolina, and that many Democrats in time to come will be likely to follow the example of their illustrious Vice President. No wonder that "most Democrats" (we quote the language of the *Confederate*) "are filled with grave apprehensions as to the future."

Negrophobia has long been a Democratic disease, and is continually assuming more malignant forms. For it the pathology of politics has no cure. The Democrat believes that the "nigger" is a monster who, like the Sphinx or Cyclops, will yet devour him. The "nigger" is before him when awake. The "nigger" haunts his dreams. He fears and hates the "nigger" with greater intensity than ever the Puritan hated the Cavalier, than ever the Churchman hated the Papist. Wherever he turns, there the "nigger" confronts him. Whithersoever he flees, the spectre goes before him. Clouds of "niggers" blacken the air around him. He sees "niggers" in the trees, stones and running brooks. His seething, teeming brain instantly shapes more of these direful fancies than ever cool reason could comprehend. And what is most melancholy, he has no means of escape from these unhappy phantasies. He has lost the power of helping himself. His passion grows by what it feeds on, and has obtained full mastery over him. No wonder that the editor of the *Confederate Democrat*, so long and so violently wrought upon, at last gives way and with a sardonic laugh exclaims that there is "no cure whatever but death for a man affected with negrophobia." Such being the case, are we to expect that ere long, a prominent victim of this madness, even the *Confederate* editor himself will, out of a decent respect for the opinions of mankind, quietly shuffle off this mortal coil? Our hope is that he will reconsider his determination, and find some other cure for the malady that is preying upon him. All is not yet lost. We beseech him and all others of his party who are in similar distress to remember that our Legislature at its late session passed an act to protect them from matrimonial alliances with persons of the colored races. There is hope yet. Cheer up and be strong!

"CONSERVATISM."—In Arizona Johnson's system of reconstruction has triumphed. The Territorial House of Representatives is as "conservative" as A. H. Stephens himself could wish. Its Speaker is one Oury, who fled from Arizona at the approach of the Union troops, and subsequently was a member of the rebel Congress. He cannot take the test oath, and the acts of the Legislature will not be legal until the members are sworn in according to existing laws. There appears to be only one man in the House who can take the oath of fealty. Of course the acts of such a Legislature will never obtain recognition of Congress. One of the newspapers of the Territory says:

> Fine tidings these to go to Washington! The House of Representatives of a young and thinly populated Territory, which has so much to ask from Congress, refusing to take the oath of fealty to the Government, and electing an unrepentant rebel its presiding officer, while the Governor of the Territory stands by and greets Mohave's loyal representative with a sneer.

FINANCE.—The New York *Tribune* severely censures the Secretary of Treasury, for keeping $100,000,000 in coin in the Government vaults, when he might use it to diminish the national debt and reduce the annual interest by $5,000,000. In truth, it is not easy to see what good purpose can be subserved by this systematic hoarding of gold. The *Tribune* goes on to say:

> Were the Secretary to use this coin forthwith in the purchase and extinction of public debt, he would, first, reduce the premium on gold—in other words, diminish the depreciation of our currency, thus bringing us ever so much nearer to healthy, natural prices; secondly, he would signally appreciate our public debt, and compel foreigners who henceforth buy it to pay something like its actual value; thirdly, it would arrest speculation and diminish importation; fourthly, it would enable the Secretary to renew his loans, when he shall be called to renew them, on terms far more favorable than he can otherwise hope for. By buying up and extinguishing nearly one hundred millions of public debt, he inevitably appreciates what remains, rendering its holders more reluctant to sell and others more eager to buy securities which are seen to be steadily rising in value. And, by continuing to buy up and extinguish, so fast as he can, with either coin or currency, the Secretary would soon be able to place a five per cent. Consol at par or over, absorbing therein most of our debt, and thus reducing the annual interest at least twenty millions.

The San Francisco *Bulletin* says Hawthorne's English is as far superior to Addison's as Addison's is to Artemus Ward's! Here's daring, slashing criticism for you. In this line recklessness can no farther go. Hereafter every reader of Addison must be sorry for the essayist's fame. How the world has been humbugged for more than a century by a belief that Addison's writings *did* contain something that was worthy of consideration, and that his style was really worthy of study and imitation! The *Bulletin's* critic does not agree with a man of some note who once gave an opinion on this subject. It was the misfortune of Samuel Johnson to think that "he who wishes to write the English language with correctness and purity must devote his days and nights to the study of Addison."

The Mormons have succeeded in covering up all traces of the late atrocious murder of Dr. Robinson at Salt Lake City. At the Coroner's inquest no facts could be evolved to throw any light on the affair. Where a whole community is engaged in a conspiracy to shield malefactors, it is generally impossible to ferret them out and bring them to punishment.

The youth of Grass Valley, California, are a fast set. A couple of weeks ago, three boys, the oldest of whom was ten years of age, stole several horses. Since that time two other youths, neither of whom was above twelve years old, fought a duel in which one of them was wounded. Fast community.

The following advertisement appears in the Boston papers of October 18th:

"Married—In this city, 17th inst., by the Right Rev. Bishop Eastburn, Hon. Charles Sumner to Mrs. Alice Cooper, daughter of Jonathan Mason, Esq., Boston."

FREE READING.—The Astor Library, in New York, has two hundred thousand volumes, and is open during the day free to all.

FROM UTAH.

The following items are from the *Vedette* of the 6th:

SUICIDE OF FREDERICK WEED.

Frederick Weed, nephew of Thurlow Weed, of New York, committed suicide on the 3d inst. by taking laudanum. He was laboring under temporary insanity, as is supposed, he having said that it was a hereditary disease. He left the following letter:

"SALT LAKE CITY, U. T., Nov. 1, 1866.

"CAPTAIN: Will you please look after my little affairs. I have a trunk, desk, chest, and carpet-sack at Taylor's Pahranagat Saloon; also, a horse at Miller's or Hunter's Half-way House, Gibson's Ranch. For old friendship's sake, please sell the horse and pay Mr. Taylor my board bill. I have a saddle and bridle at the California stables, Van Dyk & Co.; please sell the same, and if there is any balance over stable charges, pay the same to Dr. Williamson. I owe him $18; it just agrees with the amount I expended in re-locating claims for the doctor. He was in no particular hurry about settling the same. I have proved equally dilatory. You will find my commissions in my trunk; send them home, and for heaven's sake communicate the news of my rash act with as much gentleness as possible. I have a number of certificates of mining stock in my trunk; sell them if you can. The amount may defray the expenses of my funeral. This letter will be your power of attorney for doing the same. I take my leap into the unknown future without misgiving. I am tired. I am discouraged.

"FREDERICK WEED."

HIGH ASSAY OF ORE.

We were yesterday shown a certificate of an assay made by Messrs. Bolson & Molitor, of ore from the Bullion Lode, No. 3, in the Bingham Canyon, which takes the lead of all yet found. Messrs. Bottsford, Skidmore & Co. are the proprietors of this rich discovery. The following is the assay: Gold, oz. 216.27, value, $1,470 67; Silver, oz. 160.35, value, $207 35; total value, $4,678 02. Who now can doubt the existence of great wealth in this Territory?

ATTACKED BY INDIANS.

The *Telegraph* of the 2d inst. says that in the fore part of last week, John P. Lee and family were attacked by Indians at Lee's ranch, on South creek, six miles from Beaver, about daylight in the morning. The Indians shot a young man by the name of Joseph Lillywhite, through the right breast, who, it is reported, has since died. The Indians then retreated, taking some stock with them. The men at Beaver pursued the depredators but could not find them or recover any of the stock. It was not ascertained what band committed the depredation.

FROM WALLA WALLA.

The Walla Walla *Statesman* of the 16th furnishes the following:

MACHINERY FOR THE PEN D'OREILLE STEAMER.

A number of teams passed through Walla Walla on Sunday last with the machinery for the boat now being built by the O. S. N. Company to run on the Pen d'Oreille river.

NEW MINES.

The Kootenai expressman brings a report that gold in paying quantities has been discovered at the Lalispel Mission. A number of claims had been taken up, and it was thought that a permanent mining camp would be established. The new diggings are about two hundred miles this side of Kootenai, and immediately join the Mission, from which the district takes its name.

A HORSE THIEF.

A young man named David Williams, who was employed as a hand on D. R. King's place, on Dry Creek, was sent to town on Thursday of last week with a load of hay. Arrived in town, he forged an order on the man to whom he delivered the hay, on which he obtained $10. He also forged an order on D. S. Baker & Co., on which he got a pair of pants. He next endeavored to sell his employer's team, but not finding a purchaser, he took one horse and decamped. Not returning home, Mr. King became alarmed, and coming to town, learned the true condition of affairs. It was ascertained that he had gone in the direction of Wallula, where he was followed by Mr. K., and overtaken at the very time he was endeavoring to sell the stolen horse. The rascal was brought to town, and on examination before O. P. Lacy, Justice of the Peace, was committed in default of $500 bail, to answer the charge of horse stealing and forgery, at the next term of the District Court. The accused is quite a youth, but evidently a confirmed scoundrel.

FROM MONTANA.

The *Post* of the 28th ult. has the following items:

News of Indian troubles on the Missouri, in the vicinity of Milk River, continue to arrive, though the latest reports are very vague.

Oats are coming into town from the Gallatin valley, but are held at high figures—12 cents per pound being the price asked for small quantities. The specimens we saw were of fair quality.

Messrs. J. J. Roe & Co. have in their store some home made Montana flour of superior quality. The wheat was ground in the Gallatin mills. This lot is the first that has been produced in the Territory that has been offered for sale.

The finest building in Montana is approaching completion. This allusion is to the larger stone building which Mr. Dumphy is erecting on the west side of Main street, Helena. This structure is 55 by 75 feet, is two stories high, with a basement. The walls and roof are finished, and the inside work is nearly done. The southwestern room on the second floor will be used as a Court-room, and will probably be ready for use at the commencement of the November term. It is a work of which Helena may well be proud.

Letter from McMinnville.

November 14, 1866.

MR. EDITOR:—I have been a resident of Oregon for nineteen years, have been a tolerably close observer and the while, have traveled at different times, over many of the counties; have observed very closely the quality of the soils and the natural advantages of each locality, and I think I am not partial in my judgment when I conclude that Yamhill county has as many attractions for those who desire pleasant homes, as any county of Oregon. Near the centre of the county, and in the vicinity of McMinnville, is the largest compact body of fertile prairie land within my knowledge, in the State. The farmers are industrious, enterprising, intelligent and thrifty, as any observing traveler will notice. The village of McMinnville is situated on a beautiful prairie on the west bank of the South fork, or the main Yamhill river, two and a half miles from the junction of the North fork, and about ten miles from the Willamette river, about the geographical centre of the county. Although it is not the county-seat, it is the most flourishing village in the county. [A statement of business places and employments was published in the OREGONIAN yesterday.—ED. OREGONIAN.] It has a high school kept in the Baptist College, though not by a Baptist professor. The college grounds—about five acres—have been lately inclosed with a neat, substantial fence; the building has undergone considerable repairs, and been thoroughly painted on the outside. Its form is that of an L, each angle 70 feet, two stories high, furnishing many rooms for students. The average attendance in winter is from 140 to 150; something less in summer. Professor J. W. Johnson, a graduate of Yale College, has been the principal for the last two years, and has given such general satisfaction that he has been placed in charge of the entire school and building for a term of five years. This is a good locality for all classes of mechanics, as all here are busy, and the farmers are wealthy.

J. M. JOHNS.

GEN. SHERMAN'S ULTIMATUM TO THE SAVAGES.—The New York *Tribune's* special correspondent writes from Fort Dodge, October 13th, as follows: Gen. Sherman was here on the 7th instant, and stayed over Sunday. We had an Indian council, in which the General laid the law down to the Indians. He has given them eight days in which to bring in the other three white women they have, and if they do not return them without presents, he told them it would be war. The Indians started home to have a council among themselves. On leaving they said if we did not hear from them in five days we might look out for something else. The five days expired last Friday, and we are on the alert.

NEVER FAILS.—NEWELL'S PULMONARY SYRUP, the most effective and never failing remedy for all affections of the throat and lungs, is a *strictly scientific preparation*, containing no deleterious or nauseating drugs, and can be taken with impunity and certainty of relief. Don't be afraid to use it freely for any difficulty of the chest, either in infant or adult cases.

MAXIMILIAN has skedaddled from Mexico, but KOHN & FISHEL at the ST. LOUIS CLOTHING STORE still continue to receive by every steamer direct from manufacturers, New and Fashionable Clothing, which they sell at strictly San Francisco prices.

Having a large stock of Dry Goods still on hand and requiring more room for their large clothing trade, they have concluded to sell all dry goods for ladies' wear below San Francisco cost.

NOTICE TO CONTRACTORS.

SEALED PROPOSALS will be received at the office of R. Wilcox, City Clerk, until Monday the 26th day of November, A. D. 1866, at 2 o'clock P. M. of said day, for improving that part of Front street between Madison and Columbia streets, now occupied by the bridge, in manner provided by Ordinance No. 375, and the amendment thereto, being Ordinance No. 392, of said city.

First—For removing the old bridge and all perishable material therefrom, and constructing the wooden drain, and doing the filling with earth, and constructing the temporary roadway and sidewalks as required in said Ordinance.

Second—For furnishing material and constructing the curbing and sidewalks and cross-walks as provided in said Ordinance.

Third—For re-grading to sub-grade after the 1st day of July, 1867, and furnishing the material and doing the stone work as provided by said Ordinance.

Contractors will be required to bid separately on the portion of each half of the street, which is chargeable to each block of lots abutting thereon.

Specifications and drawings may be seen at the office of C. W. Burrage, City Surveyor.

The committee reserve the right to reject any and all bids deemed unreasonable.

Bonds will be required for the faithful performance of the work.

CHINESE.—We noticed a large number of Chinese passengers on the ship *Montana*. It is not at all a gratifying sight to add this addition to our population. It is a harder sight than we are able to master, to see or imagine the whole ... by the city of Portland from its Chinese ... A number of the best streets in the city ... by the worst of this class and what is most ... there seems no prospect of the abatement of the nuisance. If we are forced to have Chinese residents let them occupy some quarter designated apart from the best and most prominent places in the city, and to which their residences and business shall be confined. Now is the time to act in the matter. Should the matter remain unsettled until the future of Portland is fulfilled it will then be too late. Now is the time, before the question shall involve so much as to have passed beyond control. Who does not wish to remedy the evil so unsightly and disgraceful, that is giving Portland a prominent place in the annals of ... Who is ready to point out the remedy and lead the way to reformation?

THE HUNTING PARTY.—The hunting party that left this city on the steamer *Cascades* last Saturday, returned last evening. They report having had "a splendid time," and further found plenty of game and were successful. We imagine that the party, which was a large one, made a pleasant *tableaux* when seated around the table garnished with the trophies of that day's sport, while tales of marvelous adventures, hair breadth escapes, good shots and all the attractive dangers of a hunter's life, went round the board. This excursion has been a complete success, and we hope to chronicle many as perfect. The steamer *Cascades* and the steamer *Hunt* had an exciting race up the river, in which we understand the *Hunt* came out second best.

... CASE.—The Chinaman Ah Hong was yesterday tried for the murder of a Chinaman on Alder street, in June last. The jury was out but a short time when they brought in a verdict of guilty—as charged in the ... of murder in the first degree. Much praise is due Mr. Mulkey, the Prosecuting Attorney, for his care ... in the conduct of this case. The testimony of several most important witnesses for the State was not allowed—for the reason that their names did not properly appear in the indictment. Notwithstanding this difficulty Mr Mulkey, assisted by his colleague Mr C Beal, has conducted the case to a termination that satisfies the ends of justice.

CIRCUIT COURT. SHATTUCK JUDGE.—Proceedings of Tuesday, 20th inst. State of Oregon vs Ah Hong, submitted to the jury. A. S. Minter vs W W Baker & C B. ... judgment for plaintiff for $545 coin. S. Coffin & ... vs. Clara Hill and J. H. Stinson, guardian ad litem—ordered to A. C. Gibbs, O P. Mason, and H. Cason, to make partition of block H in the city of Portland.

A FAVOR.—We were favored yesterday with a large bundle of new papers by Charles Barrett, newsdealer, Front street. Among them are the *Nation*, the *Round Table*, ... *Weekly*, *Frank Leslie*, and all the principal papers of New York city. Barrett has a very large lot ... of American and foreign journals and magazines.

...—Wm. Currier & Co., the popular merchant ... clothiers, removed their fine stock of gents' furnishing goods to No. 103 Front street, Carter's new ... Their new room is one of the most attractive ... stock is fine and well selected. They ... in all matters pertaining to dress.

FREIGHT.—The steamer *Senator* brought last evening from Oregon City the following freight: 1,860 ... flour, 4 boxes mdse, 24 gunnies ..., 2 bales wool... 40 boxes apples, 2 hf bbls butter, 2 cases mdse, and 82 sks feed.

NEW MACHINERY.—We noticed yesterday upon the wharf thirty cases of the new machinery for the Oregon City Woolen Mills. This invoice came via the Isthmus, and was ... up by the *Pacific*. Twenty-eight cases are yet to come, and are expected on the next steamer.

SCHOOL TAXES.—The attention of the tax payers of this ... is directed to the notice of the School ... calling for the payment of taxes now due. Parties ... will do well to look after the matter.

FOR PAPER.—Among the freight by the *Pacific* we noticed ... four bundles of old rope and two crates of ... destined for the new paper mill at Oregon City. This looks like work was intended.

THE ORIFLAMME.—The steamship *Oriflamme* was still ... in the evening of the 19th inst., and it was ... he would not be able to get over the bar on yesterday.

... ARRIVAL.—The bark *Tawnyla* was passed by the ... near Woody Island. She will probably be ... up by the steamer *John H. Couch* this evening.

... —A. B. Richardson will sell this day at public sale, valuable real estate, consisting of lots 1, 2, 7 and 8, in block 257—Alder and Tenth streets.

THE HUNT.—The steamer *Wilson G. Hunt* brought, ... from the Dalles, about seventy-five passengers and but a small amount of treasure.

... —McCormick has both Harper and the Atlantic for November. We acknowledge our obligations to him for copies of these very valuable periodicals.

A great variety of interesting news and miscellaneous matter will be found on the first and fourth pages of to-day's issue.

THAT IS WORTH A SEEING.—Sarman Bros have the largest stock of Clothing and Gent's Furnishing Goods in the State of Oregon, and defy opposition in regard to price, quality and variety. Truth is fact.

... —Among the arrivals by the steamer *Pacific* ... we notice that of Mr. C. H. MEUSSDORFFER, who comes to remain here permanently with us. He brings with him a full assortment of fresh goods from the New York and Paris houses of Meussdorffer Bros, the styles and excellence of which can be appreciated only by a visit to their Branch Establishment at No. 72 Front Street.

PURE DEMOCRACY.—Stand aside, ye lesser lights of Democracy, and let the *Day Book*, that ... always consistent exponent of Democratic principles, state the relative estimation in which ... they will hold the rebels and those who ... fought against them. The *Day Book* speaks thus:

"The lunatic and besotted fools, who call Jefferson Davis and others in the South rebels, and fancy they are going to render this term infamous by ... iteration and reiteration, will be re... by the next generation as even greater ... than knaves, though it is difficult to suppose ... in the latter respect. *Rebels, forsooth! ... the noblest word in our language*—in our present as well as in our past history—and from the nature of things, always will be, however fools and ... and the tools and toadies of despotism may strive to dishonor it. * * * This progressive truth, this generation may not perceive perhaps, but we believe they will—at all events, ... may be the seeming virtue of the loyal ... of to-day, *Jefferson Davis and his brother rebels are as certain of posterity as Washington* and all the other rebels of history.

The following is the latest advice offered by the New York *Herald* to the President:

"... safety, power, honor and success ... the administration with the constitutional amendment, and the opening of a new chapter, with a new Cabinet, in regard to our foreign ... and our financial system. The opposite, of ... resistance to Congress, will delay, but will not prevent, the final ratification of this ... by three-fourths of the Legislatures of the several States; but from such a course the Executive will be rendered powerless, except for mischief to himself, the South, the Treasury and the ... to the end of his term. On the one hand, he is invited to a historical reputation as the worthy ... and finisher of the work assigned to ... Lincoln; while on the other hand nothing better awaits him than the inglorious record of poor Pierce or Buchanan.

INDIANA ELECTION RETURNS.—The following are the official majorities for Congressmen in Indiana, in their respective districts:

First—Niblack (Dem.) over Debruler, 1,410.
... —Kerr (Dem.) over Gresham, 4,914.
Third—Hunter (Union) over Harrington, 544.
Fourth—Holman (Dem.) over Grover, 416
Fifth—Julian (Union) over Bundy, 5,228.
Sixth—Coburn (Union) over Lord, 2,269.
Seventh—Washburn (Union) over Claypool, 800
Eighth—Orth (Union) over Purdue, 221.
Ninth—Colfax (Union) over Turpie, 1,972
Tenth—Williams (Union) over Lowry, 1,372
Eleventh—Shanks (Union) over Snow, 3,245.

The San Francisco *Times* says:

"The so-called Johnson party of California are ... to grumble at the prospect that all the offices will be given out to Copperheads. Our old friends, who happened to make up a party for Johnson and a programme for themselves, seemed to have been deluded into the belief that they were to furnish forth to the world a new idea in politics, namely, that a political revolution was an ... by which one party would furnish all the votes and the other would furnish all the offices. It is inconsistent for "National Unionists" to ... anybody as a Copperhead, for if the Copperhead is not Johnson's friend, who is?

THE GALLERY.—ELLSWORTH & CARDWELL, ... First street, have the largest collection of notable pictures in Oregon. This firm are executing, daily, those ... SUN PEARLS, splendid CARTES DE VISITE or ALBUM PICTURES, etc., etc. At this GALLERY may be seen some of the restored artistic beauty found in the ... of the Incas.

What Experienced Mill Men think of the Portable Steam Saw Mills built by the Oregon Iron Works:
PORTLAND, Oct 18th, 1866
TO THE OREGON IRON WORKS
Gentlemen.—The Portable Steam Saw Mill which we purchased of you last spring for Pend d'Oreille Lake, has been in operation during the past season, and has more than met our expectations in its performance. With three men, we turn out from three to four thousand feet, and with five men, five thousand feet per day of ten hours; and we take pleasure in recommending these mills as the most SUBSTANTIAL, DESIRABLE AND PERFECT MILLS IN USE, and especially adapted to the wants of this country, on account of their compact form, ease of transportation and the facility with which they can be set up and put in operation. Although subjected to the most severe tests, no repairs have been required.

Valuable Farm for Sale.
THAT VALUABLE FARM, KNOWN AS THE MC DONALD FARM, situated five miles south of Dayton, Yamhill County, is offered for sale. The farm consists of six hundred and thirty-five acres, all excellent arable land, about one-half of which is under good fence. On the premises are a good Frame House and Barn and a large fine Orchard, with an abundance of good water, excellent oak timber and a fine grove of fir. The farm is situated in a healthy and pleasant neighborhood. There is a good level road leading from it to Dayton, a point reached by steamboats the whole year. Altogether, it is one of the most desirable locations in the State. Any one desiring a farm would do well to examine this place. G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 625 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive not only after a trial, but only adds to the favorable opinion of the consumers the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

Statistics of San Francisco

We compile from the *Weekly Bulletin* of Nov 17th, the following statistics of San Francisco

CAPITAL CRIMES.

The number of indictments for murder and manslaughter was much less in the year ending June 1866, than in the previous year In 1864 65 there were 10 indictments—9 for murder, 1 for manslaughter Of these 4 were convicted—2 for murder and 2 for manslaughter; 3 were continued and 1 was transferred to another county In the last year only 6 were indicted—3 for murder and 3 for manslaughter The same number were convicted 3 for murder in the first degree and 3 for manslaughter, and 2 continued On appeals 1 cases were affirmed, and 1 was pending when the annual report was made up, and 3 convicted persons suffered death within the year

FIRES AND INCENDIARISM

The reports and records of Fire Marshal Durkee contains some interesting statisticst in regard to fires in this city From July 1 1865, to June 3 1866, there were 221 fires and alarms, out of which there were 125 actual fires. The losses by fire for the year were $593,697 77, on which there was $693 813 34 insurance The buildings burned were as follows 2-one-story brick buildings, 10 two story bricks, 7 three-story bricks, 1 four story brick 78 one-story frames 93 two story frames 8 three-story frames, 2 zinc and 1 iron The alarms are classified as follows, 125 actual fires, 18 chimneys, 44 false, 15 rekindlings, 5 bonfires, and 14 attempts at incendiarism. Of these fires 40 were set by incendiaries During the preceding year there were 124 actual fires, 25 chimneys, 67 false alarms, 4 rekindlings, 11 bonfires 14 incendiary ttemp.s, and 45 incendiary fires The losses by incendiary and supposed incendiary fires that originated in places insured amounted to $60 699 62 The total loss by incendiary fires that originated in places uninsured amounted to $21,025 Total loss by incendiary and supposed incendiary fires covered by insurance, $45,252 92 Total loss by incendiarism and supposed incendiarism not insured, $34,676 65.

INCORPORATIONS

On June 20th there were 3,048 certificates of incorporation on file in the office of the county court of San Francisco There were filed in the past fiscal year, gold, silver and copper mining incorporations 32, petroleum, 40, commercial, 46 homestead 18, religious, 9; benevolent, 5, scientific and educational, 8, Masonic and Odd Fellows 4, temperance, 1, cemetery, 1, newspaper, 3, express and omnibus, 2, pavement, 2; water, 4, social and literary, 2, bathing, 3, brewery, 2, engine, 2, canal, 1, Total for the year, 191

MARRIAGES

The greatest number of marriage licenses were issued by the county court in April, 1866, and the smallest in March, The monthly numbers were 1865—July, 101, August 96, September, 127, October, 115, November, 123, December, 120, 1866—January, 108 February, 90, March, 86, April, 148, May, 121, June, 104 Total in the fiscal year, 1865–'66, 1,348 The fees for the above licenses amounted to $2,660. By the consent of parents or guardians, 52 of the above were granted to minors viz, 31 to girls under 16 years of age, and 1 to a youth under 21.

DIVORCES.

In the fiscal year, 180 actions for divorce were commenced in the San Francisco district courts, and 88 judgments were granted, besides these, there were 22 applications for leave to act as sole traders. In 1864–'65, there were only 154 actions for divorce commenced, and 86 judgments entered, besides 17 applications for leave to act as sole traders A comparison of these figures shows a considerable increase in the number of suits begun, though very little in the number of marriages dissolved

BUSINESS.

There were 496 merchants of the third to eighth class, and 7,049 retail traders of the ninth and tenth class, in San Francisco last year There were 61 bankers, 158 general brokers in addition to 82 real estate brokers, 35 pawnbrokers, 290 billiard tables, 36 bowling saloons 48 home insurance offices and 111 foreign insurance agents, 102 auctioneers and 21 intelligence offices

LICENSED EMPLOYMENTS, 1865–6

For the amusement of the people there were 6 racing licenses issued, 5 for shooting galleries; 63 for dances, and 22 for hand organs and to street musicians. For business purposes there were 12 licenses for shipping offices, 16 for expresses, 28 for assay offices, 61 for powder stores and pyrotechnic manufactories; 37 for laundries, 62 for real estate brokers; 127 for slaughter houses, 572 for market stalls; 1,000 for meat shops and bakeries, 1,067 for hotels, restaurants and lodging houses, 13 for peddlers of merchandise, 449 for peddlers of meat, fish and produce, and 93 annual licenses for drivers.

NATURALIZATION.

In the twelve months ending June 30, 1866, 208 foreigners residing in this city, declared their intentions of becoming American citizens, and 202 certificates of citizenship were issued by our District Courts. The nationalities of the naturalized citizens were Ireland, 85; Germany, 64; England, 21, Sweden, 10, Denmark, 9, Russia, 4; Switzerland, 3, Holland, 1, France, 3; Turkey, 1, Portugal, 1.

VEHICLES

There are in this city 91 laundry wagons, sprinklers and hand-carts, 164 coaches, hacks, omnibuses and coupes, 1,107 grocery, milk and market wagons, 398 double wagons and trucks, 1,846 single wagons, trucks, drays and carts, and 248 rail road cars We have, therefore, 3,854 vehicles for hire or business uses, besides buggies, private carriages, etc.

PUBLIC SQUARES.

The city has 16 squares reserved as lungs for the purifications of the air of the town, as our population shall become more dense They vary in size, from Portsmouth Square, 1 3-8th acres, to Yerba Buena, 17 69 acres, many of them are 12 acres in extent, and the remainder average 4 acres each. The aggregate area of land in all these reservations is 117 45 acres Only one of these has been improved, and that is the smallest.

ANIMAL FOOD.

According to the statistics furnished to the City and County Assessor, 65,607 head of cattle were slaughtered in the city in the year ending June 30, 1866, besides 19,675 hogs, and 146 853 sheep. The money value of the beef was $993,699, of the pork, $199,750, of the mutton, $1,027,971; giving a total value of $2,221,420 Taking the population at 120,000, and deducting 13,000 for children under five years of age, this shows $20 75 of butcher's meat per annum, for every person over five years of age And if 17½ cents a pound be taken as the average value, it will give 118½ pounds a year, or 2 pounds, 3½ ounces a week for each consumer Undoubtedly, however, this statement is below the truth, and all the fish, game, ducks, chickens, geese, bacon, hams and preserved meats, have to be added besides, which would probably double the estimate.

SUDDEN, VIOLENT AND ACCIDENTAL DEATHS

There were only 59 inquests held in the municipal year 1865–66, but 97 cases of death by suicide, by accident, or suddenly from other causes, came under the notice of the Coroner. The suicides were 24. The highest numbers were 5 in December, 1865, and 4 in June, 1866. In January and April, 1866, there were none The mode of ending the cares of life most in vogue was by fire-arms, 12 persons perished thus by their own hands, or one-half of the whole number of suicides, 7 took poison and 2 drowned themselves, a rope, a razor and a fall, each accounted for 1 death By accidents, 59 people met their death within the year August, 1865, and April, 1866, were the most fatal months—June, 1866, being the lightest, the numbers respectively being 10, 14 and 1 The causes of death were various, drowning 19, was the most common, explosion of nitro glycerine, 12, crushing by railroad cars, machinery, a beer barrel, and wool, 5, by falling, 5 by fire, strangulation and boiler explosion, 3, by fire-arms, 4 by poison, 1, by being thrown from a buggy, 1, by being run over by railroad cars and sprinklers, 4, by fire engines, trucks and steamers, 4, by private vehicles 1 By sudden deaths from other causes there were 14, of which 7 were cases of presumed infanticide, but 4 were ascertained to be still born; 3 were justifiable homicide, and 4 were murders.

CITY AND COUNTY HOSPITAL.

The patients in the hospital on July 1st, 1865, numbered 330 and 1,439 patients were admitted during the year, making 1,769 to be accounted for Of these 1,084 were discharged cured or about 75 per cent. of the number admitted, 243 died, or a little less than 17 per cent of those admitted, 127 were discharged by their own request, 315 remained at the end of the year The average number of inmates was 341 There were 9 girls and 10 boys born in the hospital The out patients who received advice and medicine numbered 4,625 The staff consisted of a visiting physician, a visiting surgeon a resident surgeon, an apothecary, a matron, three nurses, seven assistant nurses, eight cooks and watchmen, and an interpreter The rations cost on the average 30 cents each, or $46 779 Other expenses averaged as follows per day for each patient For wines, spirits, beer etc 2½ cents, or $2 855, for household stores ½ cents, or $3 556, for dry goods, clothes and shoes ½ cents or $3 009, for medicines, 3½ cents, or $3 734, for furniture, repairs and other disbursements 2½ cent, or $3,009, for medical attendance, nurses and cooks 11 cents or $12,480, In all 22½ cents per day for each patient, or $27 73 per annum for the hospital As out patients are supplied with medicines out of that sum the cost of an inmate of the hospital cannot be estimated at more than 21 cents a day and his rations or about $7 75 week.

Mr Beecher's Final Appeal —New York, October 22 —Henry Ward Beecher delivered a sermon at Plymouth Church last night, of which the following is the conclusion

Brethren, Governor Fenton represents the idea of civic reformation, and Mayor Hoffman represents the idea of continued misgovernment in this State, and you may smooth it over by what names you please, he represents no reformation which the popular party, represented by Governor Fenton in this State, represents—reformation in civil affairs I have a right then, on the broad ground of morals, to appeal to the interests, the reason, and to the conscience of every thoughtful man on this subject, and I do I have a right to appeal to every man, of whatever party, and say, if you love Christianity, and if you love morality, and would spread it, I demand, in the name of Christ and morality, that you give your vote and influence to that side that will most certainly establish justice and equality

The "Herald" Prognosticates —The Mephistopheles of the newspaper press thus delivers himself on the next Presidency We will give the politicians gratis this bit of information Combinations have already been formed which render it certain that three candidates will be entered for the next Presidential race The Ultra Radicals will concentrate on Chase, and will look for powerful aid from the national banks, whose strength is great and increasing, and who have already fixed their grasp upon some of the most important Federal offices in the country The Conservative Republicans and War Democrats will unite in nominating Gen Grant, *nolens volens*, and he will stand, with his immense popularity as the candidate of the masses of the people The old Copperheads will bring back their pet McClellan, who is now in Germany studying tactics which he ought to have learned before he took command of the Union army, and will run again, with a new candidate for the Vice Presidency, and all circumstances considered, he is the best candidate they can put into the field

A Senator's Nap —On one occasion, during a speech by Mr Baldwin, of Connecticut, Senator Foote, of Mississippi, fell asleep, and when he waked up a Senator from Florida took him into the lobby, and repeated to him an imaginary invective which he declared Baldwin had pronounced against him Foote returned to the Senate in a rage, and began a violent personal attack upon Baldwin "I will teach the Senator a lesson" he cried, "when he calls me the arch repudiator and robber chief!" The astonished Baldwin protested that he had made no allusion to Foote whatever "What!" cried Foote does the Senator deny the fact, when I heard him with these ears!' Amid roars of laughter the Mississippian perceived that he had been made the subject of a practical joke That is said to have been the last nap taken in Congress —*Fraser's Magazine*

A Constitution for Egypt —Egypt is to have a Constitution The country will be divided into sixty electoral colleges and each college will elect one representative who will be invested with the same right as the members of the French Legislative body. All the elements of which the population of Egypt is made up Turks Arabs, Armenians Copts &c, will have a voice in the nomination of the members of the legislative body and the laws will be prepared by a special body corresponding with the French Senate and Council of State The Turkish Porte has authorized the adoption of the Constitution, and the French Government gives the movement a warm support

A Funny Toast —The Bread and Butters have this toast 'Cotopaxi and Andrew Johnson of all the Andes the most renowned' The two resemble each other in other particulars, to wit they are both given to spouting, they are both generally elevated they both emit large quantities of dust, smoke and dirt Cotopaxi however was never Alderman of its native village, and isn't given to "swinging round the circle '

The Color of Man —Dr John Davy read a paper on The Color of Man at the recent meeting of the British Scientific Association After enumerating the various colors of races and their geographical and climatical distribution he came to consider the causes of variations of colors Of these causes he placed first Exposure to the sun's rays it being, he declared an established fact expressed in the ordinary term sunburnt, that the sun's rays acting on the skin have a darkening effect and next a warmth of climate and an average high temperature throughout the year Under the influence of these there appears to be a tendency to the accumulation of carbon in the system as indicated by the little difference of color of the arterial and venous blood under exposure to heat In explanation of certain exceptions the case was next offered—as of the darker hue of the Esquimaux to exposure to the sun's rays during that portion of the year in which the sun is constantly above the horizon in the Arctic regions and during the other portion—the Winter—to their living shut up in an impure air and to their food being chiefly of a kind abounding in carbon and hydrogen On taking up the instance as that of mountaineers, though higher exposed to the sun are commonly fairer than the latitude they inhabit would seem to warrant owing in part it might be thought to their blood being aerated from the purer air inhaled and the active exercise they take producing an accelerated action of the heart, and a more rapid flow and circulation of the blood Further he inferred to hereditariness or nativism as deserving of attention in considering the color of races and more especially its importance as to the great question of unity or difference of races at origin —how if climate should be found to have greater effect than blood in modifying color, unity might be inferred and *vice versa* In conclusion Mr Davey dwelt on the connection of a good color and fine complexion with health to which nothing can contribute more than pure air and exercise in the open air

Topography of the Holy Land —During a recent meeting of the Royal Institution London Sir Henry James, of the Royal Engineers gave an account of the ordnance survey of Jerusalem We are familiar enough with this kind of topographical work in our own country but to hear of an ordnance survey of the Holy Land—to find modern science even here, making itself up with traditions of the earliest times with our scriptural associations and with the crusaders and Saracens, inspires a notion of incongruity It is true, nevertheless, that a party of red-coated English sappers have taken an accurate plan of the City of David, and carried a line of leveling all across the country from the Mediterranean at Jaffa to the Dead Sea, the object being to settle a long debated question, the difference of level between the two seas, and we now learn from Sir H James that it is settled The difference is great for the level of the Dead Sea is 1 292 feet below that of the Mediterranean, and the highest ground passed over in the line of the survey (Mount Scopus) is 2,724 feet above the level of the Mediterranean The Mount of Olives is 2 665 feet Mount Zion 2,550 feet and Mount Moriah 2 440 feet above the same level. Due precautions were taken by cutting marks in the solid rock on the route, to preserve a means of testing the survey at some future time and rendering it meanwhile useful to travelers, or to the party now engaged in the exploration of Palestine Sir H James states that Jerusalem 'occupies a space of about three-quarters of a mile in length and half a mile in width'

Death of a Newly Married Couple on the Same Day —One week ago yesterday Rev Father Butler united in the bonds of wedlock in St Stephens (Catholic) Church of Newport Ky, Mr Tony Lankoff to Miss Agnes Hjott both of this city The young and happy couple enjoyed their honeymoon on Friday Saturday and Sunday, determining that on Monday morning they would settle down to a commencement of their new life with all its business, responsibilities trials &c On Monday morning they rose at an early hour, and robing themselves in their every day attire, went to breakfast Each complained of being seriously ill, and neither could eat The husband was compelled almost immediately to retire to bed, and in a few minutes his wife followed him A physician was sent for, who upon arriving in the sick chamber, and after examination of the patients, pronounced their disease the cholera Immediate attention was given to them, during the day they continued to grow worse and at 4 30 o'clock the husband died His body was removed to an adjoining room His wife was also in a collapsed condition, and at 8 30 o'clock she too, followed her husband into the dark valley of the shadow of death The bridegroom and bride were robed in their wedding clothes, and on Tuesday were buried in the same grave —*Cleveland Herald, Oct 15*

A Streak Ahead of Noah —A dispute arose between two Scotchmen named Campbell and McLean, upon the antiquity of their families, The latter would not allow that the Campbells had any right to rank with the McLeans in antiquity who, he insisted were in existence as a clan since the beginning of the world Campbell had a little more Biblical knowledge than his antagonist and asked him if the clan of the McLeans was before the flood

"Flood? What flood?" asked McLean

"The flood, you know that drowned all the world but Noah and his family, and his flock,' said Campbell

"Pooh you and your flood," said McLean, 'My clan was before the flood"

"I have not read in my Bible," said Campbell "of the name of McLean going into Noah's ark"

"Noah's ark!" retorted McLean, in contempt, 'Who ever heard of a McLean that hadn't a boat of his ain?"

The New York *World* gravely charges that the 'Radicals' are revolutionists because they proposes to "overthrow the existing State governments of the South" This is truly frigid impudence. Everybody knows that, whatever was their origin these so-called State governments are dependents upon the will of Andrew Johnson, as they were the offspring of his individual purpose He has repeatedly ignored their existence, set aside their authority and intervened in their domestic affairs If these so-called State governments are the sacred thing' which the partisans of Johnson would have us believe, and not the mere creature of his unlawful power as President, is not A J himself something more than a revolutionist, intruding his dictation as he has in the internal affairs of these ' States of the South" as the *World* is pleased to call them?—*S F Times*

No Experiments —The New York *Dispatch* says Mr John T Hoffman asks "if it is not better to let the Southern States in, and if they do not behave well, *turn them out*." All very nice! But according to the Constitutional amendments, States cannot be turned out, and Mr Hoffman knows it The Trojans once let a Wooden Horse come within their walls without looking inside of it Had they examined the animal and kept it out until "ventilated old Troy might have escaped the fate she drew upon herself We believe in making the Southern people behave themselves before they are admitted to representation If they don t learn the lesson outside, they won't be able to practice it when they get in

New Postal Agent —We find the following in the San Francisco *Times*

The telegraph stated a few days since that Mr Benjamin C Trueman, the well known war correspondent of the New York *Times* had been appointed Special Postal Agent for California Many friends of Mr Q A Brooks, the present Postal Agent on this coast are under the impression that Mr Trueman's appointment deprives Mr Brooks of his office This is an error The duties of the two offices are distinct and separate Those of Mr Trueman are supervisory while those of Mr Brooks are active and general

Popocatapetl —The great slumbering volcano, Popocatapetl, has recently been explored by a party which reports the crater accessible Millions of tons of sulphur are lying there, and in many places in a pure state It can be carried to the summit of the volcano, and from thence to the base of that eternally snow crowned mountain at an expense of only fifty cents the hundred pounds The value of one hundred pounds in Mexico is $10 The crater is big enough to hold several cities, but it is not probable that any will be built there at present

Considerable feeling is exhibited throughout Georgia on the subject of repudiation It is thought that an effort will be made at the meeting of the Legislature in November to relieve the people from the payment of certain debts contracted prior and during the late war The plea urged for repudiation is the loss of the slaves and the failure of the crops The amount of property returned in the State for 1866 is $? 000 000 in 1860 it was $620 423 777 loss to the State over $465 000 000

Our Corn Crop —The corn crop of the United States for the present year is estimated at the enormous amount of 1,035 000 000 bushels It is stated that in the last twenty five years the annual increase of the corn crop averaged four per cent and in the three census last taken it is stated thus In 1840 377,531 875 bushels 1850 592 071 104 bushels, and 1860 830 451 707 bushels Half the crop is grown in the Mississippi valley, north of Tennessee

Violent Storm at St Louis

ESTIMATED DAMAGE ONE HUNDRED THOUSAND DOLLARS

St Louis O 2 —The most terrible wind [illegible] that ever visited this section of the country swept over this city at half past four o'clock yesterday afternoon (doing an incredible amount of damage) from the south bearing a little [illegible] It seemed to strike a screw [illegible] but it was not quarter of a mile wide where it first struck but grew narrower as it proceeded north The roofs of buildings were unroofed and church walls were thrown less than [illegible] and fences were uprooted in every direction [illegible] and all [illegible] through the air almost like feathers No lives have been reported lost but several persons were severely injured The following are some of the most serious injuries sustained All the chimneys of the City Hospital were blown down and the adjoining house completely wrecked The unfinished brick stables of the People's Railway Company, near Lafayette Park were blown down and the old stables demolished Two breweries on Lafayette Avenue lost chimneys and part of their roofs The Church of the Angels in the course of construction on St Ange [illegible] the roof of the whole south and part of the other walls blown down The pastor's house near by was also badly damaged The damage done by the tornado yesterday is estimated at $100 000

Diamond Cut Diamond —A correspondent in the Cincinnati *Commercial* tells the following plausible story of a bit of sharp practice between Gen Grant and the rebel Bishop Gen Polk

When the General was in command of the post of Cairo Bishop Gen Polk Gen Pillow and Gen Frank Cheatham of the rebel army were at Columbus Ky Flags of truce were occasionally sent back and forth between the two places and the opposing Generals were generally present. After the conclusion of business it was frequently the case that wine would be brought forth and wine drank at parting On one occasion Gen Polk proposed a toast which he said all could drink Those present filled their glasses, and he gave, "To Gen George Washington" As he paused, purposely, at the end of the name the company commenced to drink, when he added "*the first rebel*" Gen Grant had his glass nearly finished by that time, and it was no use to stop; but he exclaimed— that was scarcely fair, General but I will be even with you some day The laugh was of course, somewhat against him but the company parted in good humor

Some two weeks afterwards another flag of truce was sent down to Columbus, Gen Grant accompanying it. After business was over, the rebel General produced the wine, as usual, and Gen Grant adroitly turned the conversation into State rights on which subject Southerners always loved to dilate their rights being the alleged object for which they claimed to be fighting He allowed them to proceed at considerable length without attempting to refute anything, and they were perhaps flattering themselves with the idea that they were converting him from the error of his ways At length he arose to go and proposed a toast at parting Glasses were filled, and the General rose and gave "Equal Rights to all!" He then made a pause as Gen Polk had done, and when all were busily drinking, he added "*white and black*." The horror of the chivalry at being inveigled into drinking such a heretical toast may be easily imagined and they were rather disposed to feel angry until Gen Grant remarked

Now, Gen Polk, I think I am even with you for that rebel toast you made me drink at our last conference. Quick to see and appreciate a good joke the anger of the Southerners was turned into a laugh at the expense of their reverend General, who gracefully acknowledged himself flanked

The re election of Senator Nye by the Nevada Legislature in January next, is a foregone conclusion—thirty two of the fifty six members of that body being elected with that express understanding He will receive about two thirds of the vote of the Union caucus The result will gratify every man who favors loyal reconstruction throughout the nation

DANFORD'S
Atmospheric Coal Oil Gas Lamp!

ARTIFICIAL LIGHT OF SOME SORT, IS A UNIversal necessity A Safe, Cheap and Brilliant one is a Luxury—a luxury only enjoyed heretofore by those who live in large cities where Gas is used Years of study and much capital have been exhausted in experiments to produce a lamp wherein the ordinary Kerosene or Coal Oil could be used without a chimney and without unpleasant odor while in use That fruitful source of expense, trouble and annoyance the chimney, is in DANFORD'S COAL OIL GAS LAMP avoided it is the most perfect Lamp and will entirely supersede all other Coal Oil Lamps It is the cheapest artificial light that can be used yielding the light of an ordinary six foot Gas burner for less than ¼ cent per hour, or double the quantity of light of an ordinary Chimney Lamp for one third the cost It will burn when turned down to a taper light, ten hours for a cent, is free from smoke, can be carried from room to room and the wind will not blow it out These LAMPS will be on exhibition and for sale at the Music and Art Gallery of Shanahan & Dufrene corner of Morrison and First streets.

Horrible Diseases

How many thousands of persons both male and female are there who are suffering out a miserable existence from the effects of secret indulgence or from the virus absorbed into the system. Look at their pallid, emaciated and disfigured faces and their broken-down constitutions disqualifying them for the happiness of matrimony or the enjoyment of life In it is horrid [illegible] thousands suffer until death closes the scene Let parents guard and friends attend to those who are suffering from any of these horrible life-destroying maladies, and see they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private disease his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted or to those who are [illegible] the welfare of their friends, to be careful of the many pretended doctors who infest all cities publishing [illegible] in curing all diseases in a few days, [illegible] the public by using the names of eminent physicians in Europe and other places Be therefore careful to make strict inquiry, or you may fall into the hands of such charlatans

Seminal Weakness.

Seminal Emissions, the consequence of [illegible] solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost [illegible] producing, with unerring certainty the [illegible] of morbid symptoms, unless combatted by scientific measures, viz Sallow countenance, dark [illegible] the eyes pain in the head, ringing in the ears [illegible] the rustling of leaves and rattling of [illegible] about the loins weakness of the limbs [illegible] blunted intellect loss of confidence [illegible] proceedings strangers, a dislike to form new [illegible] a disposition to shun society loss of [illegible] flushes, pimples and various eruptions about the [illegible] furred tongue, feted breath coughs [illegible] sweats, monomania and frequent insanity [illegible] not obtained, should apply immediately, [illegible] or by letter and have a cure effected by his scientific mode of treating this disease which [illegible] effecting a quick and radical cure Dr G [illegible] Hundred Dollars to any person who will [illegible] rily to him that he was cured of this complaint of the San Francisco quacks
